RIDE uses index scores to determine school and district classifications. The index scores are based on the performance levels of students at all grade levels in the state tests of reading, writing, and mathematics. Scores are calculated for all students and for eight student groups. Under NCLB, RIDE also sets targets for participation, attendance, and graduation rates.

**Elementary Schools: School Classification Indicators and Targets**

**Mathematics**
- 2007 state target
- This school’s index score

**English Language Arts**
- 2007 state target
- This school’s index score

Missing data indicates fewer than 45 students in that group.

Shaded bars indicate that R.I. elementary schools missed the target. The target is met if there has been sufficient progress toward that target.

**Middle Schools: School Classification Indicators and Targets**

**Mathematics**
- 2007 state target
- This school’s index score

**English Language Arts**
- 2007 state target
- This school’s index score

Missing data indicates fewer than 45 students in that group.

Shaded bars indicate that R.I. middle schools missed the target. The target is met if there has been sufficient progress toward that target.

**High Schools: School Classification Indicators and Targets**

**Mathematics**
- 2007 state target
- This school’s index score

**English Language Arts**
- 2007 state target
- This school’s index score

Missing data indicates fewer than 45 students in that group.

Shaded bars indicate that R.I. high schools missed the target. The target is met if there has been sufficient progress toward that target.
